SECTION 40 MISCELLANEOUS FACILITIES

40-1 STREET BARRICADES

40-1.01 General

Street barricades shall conform to the Standard Drawings and to these Specifications. The barricades shall be placed where shown on the Plans or as designated by the Agency.

Wood members shall be either Redwood or Douglas Fir. Douglas Fir shall be treated with a wood preservative in conformance with Section 58, "Preservative Treatment of Lumber, Timber and Piling", of the State Specifications.

A fully reflectorized sign, as shown in Standard Drawing 4-38, shall be placed on the barricade with bolts, nuts, and washers, and shall face oncoming traffic to designate dead end streets. All barricades shall be painted white, with two (2) applications of a latex base paint formulated for use on exterior wood.

40-1.02 Measurement and Payment

Street barricades will be measured by the unit from the actual count of street barricades complete in place.

The unit price paid for street barricades includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing street barricades, complete in place, including furnishing and installing reflectorized signs, as shown or specified in the Contract, as specified in these Specifications, and as directed by the Agency.
