8-2.05-Allowances

Allowances may be included in the Bid for materials and/or work that cannot be accurately quantified at bid time or may be added during the course of the Contract. The Allowance may be used in whole, in part, or not at all as determined by the Agency. Payment under an allowance item will only be made upon acceptance and approval of quantities of work, invoices or other appropriate documentation as determined by the Agency. Whenever costs of the Work included in the Allowance item are more ~~or less~~ than the specified Allowance amount, the Total Contract Price will be adjusted accordingly by Contract Change Order. The Contractor will not receive any compensation for anticipated profits, loss of profit, damages, or any extra payment due to any difference between the amount of work actually completed, or materials or equipment furnished, and the Estimated Quantities for the Allowances.
